Curiosities of Novigation. It would be wome than useless to en-

wor to trace marine architecture to original inception. The Egyptians and the Phoenicians are joint claimants for the bonor of the invention of water craft, but it is highly probable that they originated at widely separated points at about the same time. Grecian fable akee Pyrrhon the discoverer of the art bending planks by fire so that they ald be advantageously used in ship-fiding. The beakhead, rudder and chor are claimed by the Egyptisms, are claims the invention of masts, and other minor nautical devices. Isia, queen of Egypt, in the year of the world 2230 is said to have first aught the use of sails.

Brery lady has a right to refuse herer some domestic duty makes it difficult, ble perhaps, to be at the time a gracious and courteous hostess. The ge of refusal, however, can be so worded that no person of any common sense or judgment could feel offended.
"Mes. Brown is engaged" is abrupt and not to be recommended, but there are many ways of making it more gracious.
"Mrs. Brown cannot receive today" is simple, truthful and should offend no as, if the maid delivers the message at the door to each and all alike, it is evident that no slight is intended.

Many tadies now have one day in the week when they are "at home." This gement becomes necessary in large is extensive and calling is a matter of ceremony. But the fact that a lady sets apart one day to receive friends is no excuse for instructing the maid to tell an untruth to those who for some reason call on another day, but it is a reason why those who call out of season have right to be offended when they are told that "Mrs. Brown is not receiving." -Mrs. Helen S. nds Discovered in Georgie. Mr. E. T. Whatley, assistant state gegist, was in Gainesville yesterday, and had the two diamonds which he had recently discovered on the farm of Mr. James W. Marchbanks.

Mr. Whatley made the second discovery in person after spending three more days of research on the mine. The last one discovered is much larger and more valuable then the first.

The second discovery verifies the fact that Hall county is not only rich in minerals, but evidently has diamonds imedded in her soil, and that it takes nothing but labor to bring them out from their hiding places. Mr. Whatley is doing a great work, not only for the state. of for the citizens of Hall county as

Ladies, do not delay your valuable time by waiting and suffering, but secure a bottle of Dullam's Great German Female Uterine Tonic and be cured of your monthly trouble either in old or young. It is the very best preparation I ever presented in my extensive practice. It has given the best results in the greatest number of cases of female troubles of any medicine that I ever used. I do not make a practice of using or recommending that I ever used. I do not make a practice of using or recommending patent medicines, but this registy is prepared by a very competent physician and chemist of my acquaintance and I can cheerfully and conscienciously recommend it as the best.
